Our mission of Making Communities Healthier® has always been central to the contributions we make to north central North Carolina and southside Virginia. As our region found itself impacted by the COVID-19 pandemic, that mission became even more critical to the well-being of our community. We are proud to be part of a national health care network that provided quality care for more than 20,000 COVID-19 patients in 2020 – including those here at home. Duke LifePoint Healthcare's continued support – and yours – allows us to create places where people choose to come for health care, physicians want to practice and employees want to work. As we look ahead to a bright future, we look forward to further enhancing how we serve our neighbors today and for generations to come. Thank you.

— Bert Beard, CEO

In 2020, we...

...added 70 employed, affiliated, telehealth and temporary providers

...made more than \$4 million in capital improvements

...distributed a payroll of \$52,616,905 to approximately 800 employees

...donated more than \$56 million in services to those in need

...paid \$6,699,060 in taxes

Inviting the best possible providers into our community and supporting them is essential to ensuring access to high-quality care. This year, we added providers in OB/GYN, behavioral health, pediatric hospital medicine and emergency care.

By continually investing in our facilities, we're helping to ensure that we continue to meet our community's health care needs. This year's investments included the completion of our new Maria Parham Health Cath Lab and a new behavioral health unit at our Franklin campus.

We strive to create an environment where talent is recognized, job satisfaction is valued and our employees can effectively use their skills to provide high-quality care and service.

Delivering care to all of our neighbors, regardless of their ability to pay, is foundational to our mission and our commitment to our community.

We are proud to be a leader in our region, and our dedication to ensuring fiscal responsibility extends both to our hospital and to our community.
